

2015 Liquor Industry Working Group Items

The Liquor Enforcement Division has identified the following items for discussion during the 2015 LIWG meetings:

From 2015 Legislation

- Powdered Alcohol
- Entertainment District Expansion
- Reissued Licenses
- Distillery Pubs
- Local Input for Salesrooms
- EBT Enforcement

From Current Issues before the Division

- Product Registration – clarifying language to allow for product registration if TTB does not issue a COLA or letter of exemption
- Trade Practices (ongoing working group)
- Replacement of Malt Liquor/Fermented Malt Beverage (Regulation 47-322(F)(3))
- Modification of Premises while operating under a temporary permit
- Self – Dispensing Devices

Items Submitted by Stakeholders

- Youth access, public safety
- Rule making for new liquor laws; New legislature, SOPs, enforcement, State's interest; Updates to liquor laws, entertainment district
- The same issues we began working on with Patrick in the original groups, as well as powdered alcohol.
- Powdered alcohol - how to prevent underage users; I am very interested in three powered alcohol and as part of local government issuing liquor licenses, I would like to be more involved
- Just want to stay in the loop with pending changes to share with the City of Greeley as well as the Colorado Municipal Clerks Organization.
- First I would like to see the group strive for clear bright lines in enforcement with consequences that take "risk management" out of the business decision. Secondly I would like to see how the industry can address the evolving three-tiered system and how to address the ever changing electronic business machine from social interaction to everyday business applications.

- Regulatory issues impacting spirits
- Alcohol server/seller training and licensing
- How beer based events can get exemptions to the importing rules for out of state breweries so that they can participate and bring in their beer to events.
- Consistency between State and Local Jurisdictions concerning licensing and enforcement.
- Trickle out law for allowing customers to leave up till 230
- No concerns to be addressed; mostly I am interested in taking a more active role in the community. I also feel that coming from a venue environment will allow me to add into the group with a different viewpoint.
- Temporary Modifications for summer patios
- I would like to help voice the perspective of event producers and destination guests concerning liquor permitting and enforcement as a representative of the Breckenridge Tourism Office.
- Packaging, certification of analysis, distribution controls
- I'd like to assist with Club licensing to ensure that all applicable issues are addressed with Club licenses in mind.
- Out of State sales from retailers without licenses
- Trade Practice issues; Unlawful financial assistance and trade practices
- Compliance efficiency
- General procedural matters
- Streamline regulations and reorganize in an intuitive easily accessible order. I would like to see the distillery pub include importers.
- It will be great to continue the work we began last year. Thanks for the invitation.
- Streamlining the process and notification of new rules, I am a new clerk and am interested in learning as much as I possibly can
- Regulation to standardize tenant/landlord, owner/manager agreements
- Any issues concerning county liquor licenses
