LED - 2023 Liquor Rules Working Group - Updated Rules from Session #3

August 18, 2023

The Division is grateful for the robust and thoughtful discussions during this year's liquor rules working group sessions.

Following the third working group session, the Division made additional edits to several regulations as discussed. The current version of the rules with the proposed changes are below. All proposed changes have been highlighted in blue.

[Updated Rules from Session #3](#)

Please note that additional revisions are still being considered to Regulation 47-436 and the regulation is intentionally omitted from the above document. The Division will release the updated draft of Regulation 47-436 as soon as possible once those revisions are complete.

Additional comments regarding any of the rules discussed during the working groups this summer may be submitted to dor_led_rulemaking@state.co.us. We appreciate your suggestions and input.

Respectfully,

Colorado Liquor Enforcement Division
