

Health and Safety Advisory: P2C3, LLC (dba Springs Dispo)

August 18, 2023 – The Colorado Department of Revenue (DOR), in conjunction with the Colorado Department of Public Health and Environment (CDPHE), is issuing a Health and Safety Advisory due to the identification of potentially unsafe levels of Total Yeast and Mold on Regulated Marijuana flower (bud/shake/trim) produced by **P2C3, LLC (doing business as Springs Dispo)**. The CDPHE and DOR deem it a threat to public health and safety when marijuana is found to have Total Yeast and Mold levels above acceptable limits established in [Colorado Marijuana Rule 4-115](#).

Through an investigation, the Marijuana Enforcement Division (MED) has identified Harvest Batches produced by P2C3, LLC that initially passed contaminant testing, but subsequently failed testing required by the MED. In addition, the MED identified Harvest Batches that were required to be submitted for testing that were not. Those batches are included below as potentially contaminated batches. The contaminated Harvest Batches listed below were sold to patients or consumers between **June 29, 2022, and May 18, 2023**. In addition, the locations where the affected product was sold are included below.

Consumers who have this affected marijuana in their possession should destroy it or return it to the Regulated Marijuana Store from which it was purchased for proper disposal. If consumers experience adverse health effects from consuming the marijuana flower, they should seek medical attention immediately and report the event to the Marijuana Enforcement Division by submitting a [MED Reporting Form](#).

All affected marijuana has a label affixed to its container that, at a minimum, indicates the license number of the Regulated Marijuana Business that cultivated the marijuana as well as the Harvest Batch number assigned to the marijuana. Consumers should check the label of their container of Regulated Marijuana flower (bud/shake/trim) for the following license number and Harvest Batch numbers.

Medical Marijuana Cultivation Facility: 403-01300
