## **Appendix 7: Public Comments**

This appendix lists all comments received from both members of the public and proposals submitted by members of the Liquor Advisory Group (LAG) that were transmitted to the public for review and comment.

All received comments and proposals have been sorted by relevant topic. These topics are listed alphabetically from A to Z. Under each topic category, the submitted comments are listed alphabetically by last name of the commenter. For those who submitted multiple comments under the same topic, the comments have been listed according to the date received in ascending order.

If a member of the LAG submitted a proposal for a specific topic, the proposal is generally listed first, followed by the received comments in the order described above. The original proposals may have changed over time in order to incorporate recommendations made during the LAG discussions, and one should refer to proposed language that was voted on and recorded during the meeting.

It should be noted that several of these topics resulted in a proposal being put forward by the LAG members for consideration by the General Assembly. In this case, the respective proposal number is placed at the end of the topic header in parentheses. However, some topics did not result in a proposal and were only discussed by the group members, either in the subgroups or in the full LAG monthly meetings.
