LED - 2022 Tobacco Rules Working Group

August 9, 2022

Dear Tobacco Stakeholders,

The Division is grateful for the robust and thoughtful discussions during this year's rulemaking sessions. Thank you to everyone for your continued engagement in the rulemaking process.

After our work groups concluded, the Division received a suggestion in regards to Regulation 7-200(E), which prompted the Division to add paragraph (E)(6) to this regulation. We are including a link below to the current version of the rules so you are able to see this proposed change as well as the other rules we discussed in work groups this year.
