LED Movelt Secure File Transfer Platform

DATE: April 26, 2022

Dear Liquor Stakeholders,

The Liquor Enforcement Division (LED) is excited to announce the implementation of a new secure file transfer platform. This platform will facilitate the electronic transfer of licensing applications between the LED and your agency. Our planned go-live date is scheduled for June 1, 2022.

Benefits of using the new system include:

- Faster application processing times
- Secure file transferring
- User friendly

Participation in the secure file transfer platform is not mandatory, and you can continue to mail applications with payment to the LED.

To begin using the new secure file transfer platform, you will need to create an account. The process of creating your agency's new account is very straightforward and only requires users to provide their name and email address.

To create an account, please complete the google form requesting a new user account. Click [HERE](#) to view the google form.

Once the user request form is complete, you will receive an email from the Colorado Office of Information Technology (OIT) that will include your user name and password.

If you have multiple users, please complete separate Google Form submissions for each user.

The deadline to complete the user request form is COB on April 29, 2022.

Thank you

Colorado Liquor Enforcement Division
