September 21, 2021

Dear Liquor Stakeholders,

As we wind down this rulemaking year, we want to thank you for all of your hard work and engagement with the rulemaking topics this year. We value collaboration, and always strive to work with our industry and agency partners to draft Regulations that are fair, and address industry needs while remaining focused on education and public safety.

Linked: [HERE](#) is the finalized draft of the proposed rules that we have all worked on this year. We welcome any feedback, comments, suggested language and ideas that you may have in reference to these rules. Please submit these comments to: dor_led_rulemaking@state.co.us

Please note a few additional amendments that have been included in this finalized draft since our last meeting:

- Allowable to-go containers (Regulation 47-1101);
- Re-use of Alcohol bottles that have all labeling removed (Regulation 47-904); and
- The extension of Temporary COVID modifications (Regulation 47-302).

We will be publishing notice of permanent rulemaking and providing a date for hearing by the end of the month. Please do not hesitate to reach out to us with any concerns or questions you may have. Thank you again for your participation and thoughtful input this rulemaking year. We look forward to seeing everyone soon.

Colorado Liquor Enforcement Division
