To: dor_led_rulemaking@state.co.us

To whom it may concern:

The Colorado craft brewers support the prior discussion to allow for direct to consumer beer shipping and ask the Marketplace Structure Subgroup move it to the larger LAG. In light of other public comments regarding concerns for public safety, the brewers recommend a new permit specifically for beer shipment that mirrors the wine shipping code (C.R.S. 44-3-104), but requires proof of a valid state and TTB brewery license, and includes strict penalties for violations of the statute. Additionally, in an effort to ensure public safety, a second public carrier license could be created to ensure those companies that ship products for breweries (or wineries) would fall under the jurisdiction of the Liquor Enforcement Division for illegal shipments of alcohol.

Cheers,
Shawnee
